MAGNOLIA GARDEN NURSERIES, Charleston, S.C.

Camellias for Fall, 1943

Due to War conditions we are sending this price list with our old catalog which contains descriptions of the majority of camellias listed below. Having been in business only three years, our largest own root has only two seasons' growth. However, we do have a fair supply of grafted plants of the rarer varieties. We have listed only those varieties which we have in sufficient quantity to meet the demand. If you are interested in any variety of which we have only a few, please inquire.

On account of the scarcity and high cost of materials and labor, we regret we cannot accept any orders to be crated and shipped under \$10.00. This will be in effect for the duration only.

Those varieties marked with asterisks can be supplied in amounts of 10 with a 20% discount. Double asterisk marked varieties available in 10 lots in both 6"- 8" and 8" - 12" sizes while single marked ones supplied only in the 6" - 8" size.

GRAFTED CAMELLIA LIST

Every graft on larger understock varies considerably in size and shape and thus must be priced according to its own merits. It is impossible in the larger understocks to print size and price of each individual graft of a variety, so we can just give a general idea below of what is available. Write us the size or price you wish of any camellia and we can quote more accurately on that particular variety. We also have a few each of many varieties we did not have in sufficient number to list. NEARLY ALL OF THE LARGER GRAFTS ARE BUDDED.

We expect to put in a large number of grafts on all sized understocks this winter and will be glad for any special orders. There are now 544 different varieties at Magnolia, so we should be able to supply the most exacting collector. All inquiries will be welcome.

GRAFTED CAMELLIA LIST

	: Understock	: Sizes	: Prices
Elizabeth Boardman	: 4-6-8-10 yr.	: 8-12" to 24-30"	: \$ 5.00 to 25.00
